

TRANSPORT PACKAGING SOLUTIONS

Packaging Profile

Stacking strength and protection for demanding conditions

- 100% recyclable laminated carton board
- Several tons of stacking strength
- High quality standards
- Humidity resistant
- Special production method
- Carefully selected raw materials
- Rigorous tolerances

Sustainable packaging is your contribution to the environment

ELTETE DESIGN AND R&D

is based on our own know-how and technology. Eltete FramePack® and the Packaging Profile have been developed together with multinational companies for their most demanding conditions where several tons of stacking strength is needed and where humidity resistance is of paramount importance.

STRONG LAMINATED CARTON BOARD

Packaging Profiles are the base for Eltete FramePack®, which is an environmentally-friendly packaging solution. It is also a good alternative to wooden, plastic and metal frames as well as a substitute for heavy boxes.

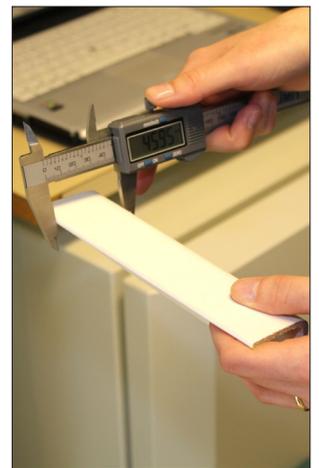

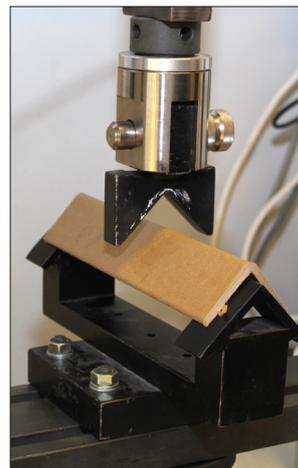

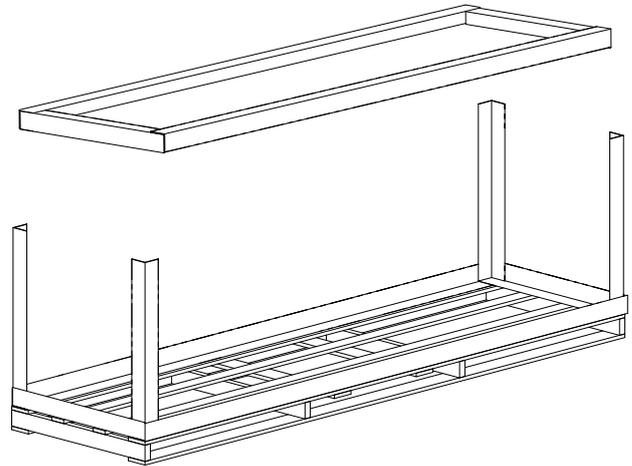

STACKING

requires high-quality raw material and extra strong profiles, which Eltete is able to produce using special methods. The final product is tested by our rigorous quality control.

INDEPENDENT LABORATORY TESTS

have been performed by the most respected packaging test laboratories in cooperation with our multinational reference customers. Eltete's own testing laboratories use the EN 13393 specification as the basis for its testing methods. A suitable packaging profile will be chosen based on a study of each individual application depending on strength and other requirements.

Eltete provides standard solutions worldwide from its global production network.

Eltete TPM Ltd (Transport Packaging Materials) is a global carton board converter and an ISO-certified supplier of 100 % recyclable transport packaging materials. With own engineering division we are able to react quickly to customer demands.

With experience since 1974, we are experts on the needs of today's market. Innovative and high-quality packaging solutions made of compact carton board are being offered in more than 60 countries through Eltete sales organization. With 19 production sites in 15 countries we are close to our customers.

Eltete TPM is the world's leading producer of sustainable carton board transport packaging materials and solutions.
